## **Intentional Performance Training Program Application**

**Langebaek Retreat Center  
Langebaek, Denmark**

**7-11 July, 2008**

### **Information About The Venue:**

We are very excited to offer the Intentional Performance training program at the Langebaek Retreat Center, about an hour south of Copenhagen. This facility is a charming old farmhouse at the edge of the coast that's been converted into a modern conference center. We will be staying at the Langebaek Retreat Center for the entire program and have designed a residential package for you to stay with us.

The fee for accommodations at the Langebaek Retreat Center is \$400 (USD) for five days and four nights. You'll enjoy a shared double room, delicious meals—breakfast, lunch and dinner—and snacks and beverages during the training day. There are a very limited number of single rooms. These will be available on a first come first served basis for an additional fee of \$200. Participants are welcome to arrive the day before the training begins, however the overnight room, dinner, and the following day's breakfast (7 July), are not included in the accommodations fee and must be paid for separately. The same is true for departing the day after the program ends. The extra night fee is \$85. Please contact Nancy Riggio ([nsriggio@appliednlp.com](mailto:nsriggio@appliednlp.com) or +1 609 275-1845) if you plan to arrive the day before or depart the day after the training ends.

While it is not recommended, it is possible to commute to the program and be fully engaged in the participation as well.

We'll be the sole guests at the center during the training so we'll have “the run of the house”, and we'll take full advantage of that as we build the program activities. This will be a wonderful part of your training experience... Inevitably our program participants remark how much the venues we select impact the training experience they've had with us as well as how conducive the training design is to making and building lasting connections with other training participants. You will be building memories with us here...

## **Step Two: Audio and Video Recording Disclosure**

Applied Behavioral Technologies, Inc. routinely records all the meeting room audio of our programs for our libraries as well as for potential public release for training, marketing or other related purposes. From time to time we also video record these programs, which may also be produced for public release. We sometimes receive requests from individual participants that they not appear in the videos and we are very happy to accommodate these requests by establishing an “off camera” seating area. This in no way inhibits the participants viewing or listening experience. It may impact their participation in that they are unwilling to appear in front of the group in expositional exercises lead by the Trainer for the benefit of all the participants but the learning experience of breakout group-exercises is not impacted.

### **Please check Option-One or Option-Two below:**

#### *ÿ Option-One*

I understand that audio and/or video recordings of this program will/may be made and I grant my express authority that my physical likeness and voice be captured on video and/or audio media for possible future public release under the sole discretion and control of Applied Behavioral Technologies, Inc.

#### *ÿ Option-Two*

I would like to remain off camera during this program and grant express permission that any of my vocal participation will/may be captured for future public release under the sole discretion and control of Applied Behavioral Technologies, Inc.
